

Manish Timilsina

Jarankhu , Kathmandu • 9840590906 • timilsinamanish3@gmail.com

Enthusiastic QA Engineer with hands-on experience in manual and automation testing using Selenium with Java. Skilled in identifying bugs, writing test cases, and improving software quality through effective collaboration. Proficient in Java, HTML, CSS, JavaScript, with a strong foundation in backend and frontend development.

EXPERIENCE

QA Intern – Treeleaf Technologies

- Performed manual testing on core modules focusing on feature validation and UI responsiveness. Designed and executed test cases for task management, messaging, and integration modules
- Created and maintained Selenium automation test scripts using Java for repetitive regression tests
- Reported, tracked, and verified bugs using collaborative tools while working closely with developers and product teams

Trainee – Miracle Interface Pvt. Ltd.

Present

- Gained hands-on experience in API testing by designing and executing test cases for functional validation and reliability
- Worked with Customer Relationship Management (CRM) and Content Management System (CMS) platforms, ensuring smooth workflows, data accuracy, and system usability.
- Collaborated with developers and QA team members to identify, document, and resolve defects in APIs and integrated modules
- Improved understanding of software testing processes, including test planning, execution, and reporting for client-facing applications

EDUCATION

Bachelor of Science in Computer Science and Information Technology

Kathmandu

Prime College

Present

It is an undergraduate degree program that blends ideas from information technology and computer science.
